

Protect someone's tomorrow with a gift to MedicAlert in your will.

A gift in your Will ensures MedicAlert's future and enables us to keep working so that no one is alone in their time of need.

A gift in your Will also allows you to leave a much larger gift than would be possible during your lifetime, while still remaining in control of your assets. The advantages of leaving a gift in your Will to MedicAlert are:

- **Generosity** – After providing for the financial needs of your family and heirs, your Will enables you to help others and give generously to the charities and causes that matter to you
- **Impact** – A gift in your Will can allow you to leave a larger gift than would be possible during your lifetime. This can dramatically increase the impact MedicAlert can have in working to fill gaps in the health system, and ensuring no one is alone in their time of need
- **Cost-effectiveness** – A gift in your Will doesn't cost you anything. This type of gift is made from your assets rather than your current income
- **Tax Relief** – A gift in your Will can be a highly effective way to reduce estate taxes.

Ways you can leave a gift in your Will:

- Leave a specific dollar amount.
- Leave a contingent bequest – a share of your estate after your other beneficiaries have passed on.

Next Steps

If you are interested in leaving a gift to MedicAlert in your Will, we encourage you to seek professional advice with your lawyer and/or financial planner, to ensure your financial goals are considered and you can determine the approach that is most beneficial for your family and your charitable intentions.
